

vercel

Last 90 days · generated 2026-08-10

Across 6 of 6 repositories scanned, vercel stands at 72/100 overall (L4 Integrated), down 6 points over the period, with AI Adoption at 57 and Engineering Rigor at 79. Of 2 repositories comparable across the period, 0 improved and 0 regressed. The fleet is strongest on D3 CI/CD & Delivery (95/100) and weakest on D4 Agentic Workflows (33/100). The widest gap shared across the fleet is "Agent guidance is thin — agents have little to go on here", present in 3 of the scanned repositories.

Change vs Last 90 days start: -6

Coverage: 6/6 repositories scanned

Value this period: 1 recommendation completed · fleet -6 pts

Fleet adoption: 67% of scanned repos at a high AI-adoption posture

Scored by Claude CLI ×5, Mock (deterministic) ×4 · some scores this period used the deterministic mock engine, not the live model

Strengths

D3 · CI/CD & Delivery	95/100
D2 · Automated Testing	90/100
D7 · Commit & Velocity Signals	87/100

Weakest dimensions

D4 · Agentic Workflows	33/100
D9 · Supply Chain & Security	52/100
D1 · AI Tooling & Conventions	62/100

Recommended next move

Agent guidance is thin — agents have little to go on here — the widest shared gap across the fleet (D1 AI Tooling & Conventions, high impact, shared by 3 repositories). Closing it is worth about +9.3 maturity points on each affected repository, advancing 1 of them to the next level.
